

Workshop

About Us

Kerda Softech offers innovative, optimum, and competitive IT solutions and organizes workshops for students and freshers to create awareness about the market and its technologies by sharing new opportunities and better ways of thinking.

We do this by connecting the students with the best leadership educators and corporate speakers who will encourage the students to question their assumptions, evaluate arguments, and develop a broader perspective on their studies.

Our workshops are deeply rooted in the latest IT technologies, pathways to career development, learning from practitioners who specialize in a particular topic, team management, professional success, and areas of personal growth.

What we offer

Our workshops cover two aspects, namely, Technology Training and Placement Guidance.

Kerda Softech along with the corporate speakers put in sincere efforts to make the students familiar with the ongoing IT trends and latest technologies , including:

- Artificial Intelligence
- Blockchain
- Internet of Things
- Android Application
- Digital Marketing
- AutoCAD
- Ethical Hacking
- Python
- Big Data - Hadoop
- Cloud Computing and Data Science

Our Placement Guidance Workshops spread awareness on higher studies and job opportunities, help them in resume-building, and prepare them for placement activities.

OUR USP_s

1. CORPORATE SPEAKERS

Our esteemed corporate speakers, includes:

- ▶ *Deepika Koul, CEO/Blockchain Evangelist at Lets Create Virtual*
- ▶ *Rishikesh, Data Scientist/CTO at Deepsync*
- ▶ *Anshu Pandey, Corporate Trainer/Program Director at BootUp Academy*

Amongst many others, set a perfect example for instilling the creative ideas and efficiency in the minds of the students.

2. STUDENT INVOLVEMENT

Our Workshops provide a unique experience to all students by dedicating an entire session for queries and conducting quizzes.

3. CASE STUDIES

Our experts share details about the projects they have worked upon and express their overall experience, which helps the students in gaining exposure by being exposed to new points of view and ideas.
